

Regional Field Engineer - Calibration & Inspection North or North-West London

Job description:

Caltec (ATC) Limited is a leading Calibration and Inspection Company offering on-site services to the Automotive Sector throughout the UK. Due to retirement & to satisfy customer requirements, we are looking to recruit a full time Calibration/Inspection Engineer. Following training, the successful candidate will carry out on-site tool & equipment calibrations and Loler inspections in North London, North-East London & North-West London. Applicants will need to live in the above locations & will be visiting dealerships and independent garages in & around these areas. All Engineers are expected to support colleagues when necessary; for example, to cover holiday & sickness absence. This could involve travelling further distances & therefore necessitate staying away from home.

A family business incorporated in 1993, Caltec employ people who genuinely care about their job, our customers & their colleagues. Our success has been a product of the fantastic people who work for us & this is recognised in the industry; we are the leading approved supplier for the VAG Group, JLR & Mercedes Benz. We want our employees to be proud to be part of the present and future of Caltec.

We will provide a vehicle, laptop, training and the specialist equipment required to carry out your tasks efficiently. Supporting this role is our head office team based in Cheshire.

Key Skills:

- Minimum qualification: C&G level 2/3, Ideally NVQ level 3, HNC in Mechanical or Electrical Engineering
- An Engineering background is essential together with a general interest in Quality & Compliance and technology
- Previous experience in calibration is preferred, but not essential as job-specific training will be given.
- Strong levels of numeracy and literacy with experience of Microsoft Office (Word, Excel, and Outlook) are required.
- A conscientious approach to work with a high degree of attention to detail and accuracy of measurements & records is imperative.
- A clean driving licence is essential for the position.
- You must be able to speak English confidently.
- You will work to specific measurements and processes, to meet Calibration, Health & Safety standards & Government Regulations.

- A flexible approach to working hours is required as on occasion there will be early starts/late finishes. In general, you should find the role provides for a better work life balance
- It may be necessary to stay the odd night away

If you are a trained, qualified Engineer and can work both independently and as part of a team, have a full UK driving license and are keen to be involved in a rewarding working environment, please apply in writing with your CV to office@caltec-atc.co.uk.

The Directors of The Company recognise their duty to actively promote Equal opportunities for all employees and to eliminate discrimination (whether direct or indirect, or perceived) in its various forms. It is their intention to do what is reasonably practicable to ensure the company's employment methods and procedures achieve this.

The main areas for recognised discrimination are Age, Disability, Gender Reassignment, Marriage & Civil Partnership, Pregnancy & Maternity, Race, Religion or Belief, Sex, and Sexual Orientation.

Job Type: Permanent Full-time (Monday to Friday)

Salary: £45,000 - £50,000 per annum (incl. annual bonus)

Benefits:

- Company pension
- Life insurance
- Private medical insurance
- Sick pay

Application question(s):

- Our motor insurance only covers employees age 25 yrs & over. Are you over 25?
- Do you live near the M25/North or West of London?
- You will be visiting clients in these & neighbouring areas, so your location is vital.
